

Corporate Profile

We provide innovative solutions engineered to fit perfectly with your business challenges

Full-Service Solutions

AMEC's Earth & Environmental operations offer full-service solutions to clients throughout North America and internationally. We are dedicated to the consistent achievement of industry-leading standards of excellence in environmental consulting, including:

- Environmental Engineering, Management, Planning and Compliance
- Geotechnical Engineering
- Materials Engineering, Testing and Inspection
- Water Resource Services and Civil Projects
- Program Management

Local Service, Global Reach

With more than 150 locations coast-to-coast across North America and representation in 40 countries, the company can draw on its experienced local managers and geographical reach to support the needs of clients, regardless of project size and complexity. AMEC's depth of global resources allow us to provide you with innovative solutions engineered to fit perfectly with your business challenges.

Professional Team of Experts

Our ability to attract and retain highly educated, trained and dedicated professionals enables AMEC to meet the diverse needs of clients. The company supports the

development of its staff through training opportunities, the latest technological tools and interoffice exchange of information. AMEC has received numerous commendations from clients and awards of excellence from national and international associations.

Corporate Strength

AMEC is an international engineering services company that designs, delivers and supports client assets for customers worldwide across the public and private sectors. AMEC employs people in more than 40 countries throughout North America, the United Kingdom and around the world. We are dedicated to the consistent development of industry-leading standards of excellence in earth and environmental consulting and engineering.

Since 2000, Engineering News Record magazine has ranked AMEC among the top International Design Firms. In 2004, the company was the top International Design Firm in the United States. For more information, contact your local AMEC office, or visit www.amec.com.

For references to our other office locations and other services in areas as diverse as information technology, risk assessment, facilities engineering, human environment and marine operations, go to www.amec.com/earthandenvironmental
